

Health Risk Assessment Tips

- CSM must complete the HRA for each child within 30 days of enrollment in the child’s Medicaid plan through Integrate.
- Integrate is a custom web application designed by CBCIH to streamline data collection and reporting that CBCs have access to utilize.
- Self-registration is required at <https://integrate.cbcih.com/cbcih/Account/Login?ReturnUrl=%2fbcih>

- Click “Register” to create an account
- Complete registration form
- Validation will be through an email confirmation link
- If no match on FSFN ID/FSFN email/FSFN Agency ID, admin must approve
- After registration, CSM will login with username and password.
- The dashboard will appear with applications based on your role.

Health Risk Assessment Tips

- Applications for CBC/CBCIH staff include:
 - *Health Risk Assessments (HRA)*
 - *Primary Care Physicians (PCP)*
 - *Integrated Member View (IMV)*
 - *Provider Requests*
 - *Referrals for Health Case Management*
 - *Policies and Procedures*
- Health Risk Assessments (HRA) will have a link on this screen.
 - Referred to as “Health Risk Assessment” (HRA) or “Health Risk Screening” (HRS)
 - Tool used to help identify the physical, dental and behavioral health care needs for children within the child welfare system of care
 - Web-based form, pre-populated with FSFN demographic data
 - 4-page form with 32-45 conditionally-based questions
 - Initial step in gathering information, providing care coordination and assessing the need for case management (similar to the initial form that a parent/guardian would complete at a doctor’s office)
 - Completed for all children entering the child welfare system of care by the Dependency Case Manager
 - Includes the initial selection of a Primary Care Physician (PCP)
- Enrollment HRA for new OHC children
 - Follow your current Medicaid verification/enrollment process
 - Before Monthly Magic - Develop a method to identify all new OHC children
 - Thursday/Friday before MM – Call Choice Counseling to enroll each child in a plan
 - For ALL new cases enter HRA’s into Integrate by the last day of the month
- The HRA app can be used to search by Name, DOB, FSFN IDs for an individual or by Case ID to return all case dependents.
