Introduction

The Embrace Families Network Support & Resources Department is responsible for supporting a full array of comprehensive services, ranging from subcontracted formal programs to individualized mentoring. These include prevention services are designed to support children and families in their homes and divert them from formal court involved dependency services. In addition, dependency services are aimed at supporting and strengthening the biological parent, caregiver and child, youth or young adult placed under the supervision of the Court. All services are family centered and focused on achieving permanency for the child or youth and then providing appropriate supporting services to ensure that permanency is sustained long term.

Our Department can assist internal and external staff including Case Managers, Supervisors, Residential and other providers, caregivers, Guardian Ad Litem, Child Protective Investigators and other partners with program and service referrals, provider complaints or concerns, ARGOS CM service authorizations and any other provider issues.
